

Can I try the application features before purchasing points?

Question:

I have one or more features that I would like to review before purchasing the points required for it to function. Is there any way I can try these features before purchasing points?

Answer:

You can register a 21-day trial on our website, though the URL "<http://www.mymovies.dk/home/request-trial.aspx>". The trial gives you full functionality in the application for 21 days, by temporary adding 2,500 points which is the maximum requirement for any feature. You will a few days before the end of your trial receive an e-mail with a notification that the trial is running out. Notice! You can register the trial only once per user account (creating duplicate accounts is not allowed) - if you for some reason need further time to evaluate the application, you may request your trial reset by contacting us on support@mymovies.dk.
