# Can I try the application before purchasing?

Question:

Can I try the mobile application My Movies for iPhone, My Movies for iPad or My Movies for Android before purchasing?

Answer:

All of our mobile applications exists in "Free" versions in the iTunes App Store, Mac App Store or Google Play Store, which is identical to the "Pro" applications, with the exception of being limited to a maximum of 50 titles, maximum 10 items in lists in "Trailers" and "Releases" sections, and a disclaimer per every five clicks when using the remote control functionality. You can locate the applications by searching for "My Movies Free" in the store.
